

George Washington's a nice young man
A lie he wouldn't tell
But when he cut the cherry tree
His father gave him...

Hallelujah, hallelujah, hallelujah
Good glory in my soul

My mother takes to washing
She does it very well
But when they fail to pay her
You bet she gives 'em...

[Chorus]

I took my girl a-walkin'
Down on the prairie dell
And when the old folks find it out
You bet they give us...

[Chorus]

The engineer blew the whistle
The fireman rang the bell
The brakeman hollered "all aboard"
And away we went to...
